

## **Basic education 9.1.2023 -**

Obtain a basic education at Finnish comprehensive school level. After the basic education one often continues into vocational studies or straight to working life.

The basic education is divided into the introductory stage and the final stage

### **The introductory phase**

The objective of the basic education in the introductory phase is to ensure that you have the basic knowledge, skills and studying skills to be able to perform the actual basic education (final phase). This study includes the basics of the Finnish language, Finnish everyday language and Finnish grammar.

The introductory phase lasts until the student can move into the final phase studies. The introductory phase studies take 0-2 years.

### **The final phase**

The final phase includes 46 courses of studies in the Finnish as a second language, English, mathematics, Swedish, physics, chemistry, history, social studies, biology, geography, health studies, life stance education, guidance and optional courses.

The final phase studies take 1,5-2 years. Student's Finnish language proficiency is at level A2.1 at minimum.

### **Who can apply**

Immigrants who are 17 years or older and who can read and write in Latin alphabet (ABC)
